

MINE UNDER FIRE AS TROOPS LEAVE

Outbreak Follows Withdrawal of Mingo County Guard.

By the Associated Press
WILLIAMSON, W. Va., January 15.—Shots were fired at the Williamson Fuel Company plant in this city last night. It was reported at military headquarters here late today. No one was injured. The report of the attack was made public shortly after a reserve company of federal soldiers on coal strike duty here had entrained for Camp Sherman, Ohio.

The assailants, the report said, had not been identified. Windows in the powerhouse were shattered. This was said to be the first time a mining property had been fired upon in Williamson since the Mingo coal strike was called.

Several days ago a detail of soldiers on duty at the plant was withdrawn, but when it became known that shots had been directed at the works the guard was restored. The plant, originally affected by the strike, resumed operations shortly after the troops took charge.

While no official report was issued at military headquarters relative to the removal of the remaining soldiers on duty in the district, it is understood that the troops will be withdrawn just as soon as state police take charge of the situation.

Reports received here from Sprigg and Matewan, mining towns in the strike zone, were that sentiment was against having the soldiers removed. Petitions were in circulation to protest the withdrawal order, it was reported. Military officers here said that they had heard of the petitions being circulated, but they would make no comment.

RUM RUNNERS BELIEVED TO BE USING AIRPLANE
Black Hills Officers Fail to Find Still, But Discover Intoxicated Ones.

SIoux FALLS, S. D., January 15 (Special).—Now that the highways leading from the British northwest and from Wyoming and Montana are for the most part a mass of ice and snow, making the use of automobiles difficult, it is believed that in at least one case whisky runners are utilizing an airplane in transporting liquor into Black Hills.

Black Hills officers have recently noticed that more drunken men than usual are seen in the Black Hills towns, and this has caused speculation as to the source of their supply. No stills can be found in the Black Hills. It has been discovered that during the past few weeks an airplane has been seen on a number of occasions in the region northwest of Sturgis, north of the Black Hills. The plane has made trips rather regularly.

The state and prohibition officers would require another airplane in order to capture it, and this would prove a difficult task in the darkness of the evening. The only easy method of catching the plane would be to discover the landing place in the Black Hills and then have officers on hand to watch for the landing of the airplane.

VICE ADMIRAL H. HUSE GIVES UP HIS COMMAND
Relinquishes Command of U. S. Naval Forces and Will Return to Home Duties.

CHERBOURG, France, January 15.—Vice Admiral H. H. Huse this afternoon handed down his flag as commander-in-chief of the American naval forces in European waters and relinquished his command to Vice Admiral A. P. Niblack. The ceremony took place on the United States cruiser Pittsburgh. The customary salutes were fired and a reception followed.

Vice Admiral Huse left late today for Paris, where he will remain a week, and then will sail for the United States, where he will return to the grade of rear admiral and take up command of the third naval district, with headquarters in New York. The Pittsburgh will join other American warships abroad in a cruise of the Mediterranean.

DR. JONES RESIGNS.
Dr. C. O. Jones, chief of color and protein laboratories of the bureau of chemistry of the United States Department of Agriculture, has resigned, to be director of a laboratory of a company.
